2. Looking to full implementation of its plan in FY 1981, FBIS requirements for FY 1980 are pared to allow for the unavoidable lag in recruiting and clearing new personnel. Therefore we show substantially less than full year requirements in FY 1980 and full-year requirements for all but one item in FY 1981. For coverage of Soviet Muslim region media we anticipate the recruiting lag to last through FY 1981. The two columns headed New Staff Positions show the net number of new positions to be encumbered in each year. However, early authorization of the FY 1981 positions is necessary to enable us to recruit for them in FY 1980.
